1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 6-11, 19 and 20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 2 of U.S. Patent No. 6,096,805. Although the conflicting claims are not identical, they are not patentably distinct from each other because the process claims of the patent produce the product of the claims of this application. A product is obvious from the process of making it.

2. Claims 6-11, 19 and 20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. 6,348,521. Although the conflicting claims are not identical, they are not patentably distinct from each other because the process claims of the patent make the product of the claims of this application. A product is obvious from the process of making it.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1711

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 6-11, 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Burkhardt.

Burkhardt discloses mixtures of hydrophilic and hydrophobic blocked polyisocyanates. He prepares them in water miscible solvents (col. 5, line 36) and neutralizes the carboxylic acid on the hydrophilic compound with amines (col. 6, line 25). He then adds water and removes the solvent. In col. 6, line 65, he discloses 30-70 wt. % solids content. In col. 3, he discloses using these dispersions to form coatings with melamines.
